

# Bringing Back the Milky Way!

*Learn how to save money, preserve our night skies and enjoy the stars!*

**Please join us to learn about “Better Lights for Starry Nights.”**

Saturday, June 8<sup>th</sup>, 2013

Program at 7:30 followed by guided star gazing with the San Antonio Astronomy Club

Lost Maples State Park, Vanderpool, TX  
(East side of the maintenance building, bring \$5 for entrance)

*A dark night sky full of big bright stars is important here in the Hill Country, just like clean rivers, scenic vistas and natural landscapes. Little by little, light-by-light, the magical mystery of the big Texas night sky is diminishing. But it's not too late to reverse this trend. You can help!*

- Bill Wren of the McDonald Observatory will share his expertise on the value of starry nights and simple strategies to protect the Texas night skies.
- Learn money saving tips - what you can do to "fix" wasteful outdoor lights at your home, ranch, neighborhood and community.
- The charm and scenic beauty of the Hill Country will be enhanced as our community works together to create starry nights for future generations.
- Learn more about protecting Starry Nights at [HillCountryNightSkies.org](http://HillCountryNightSkies.org).
