

Leona River Riparian Workshops

*How do creeks and rivers work?
Why do they move? Are floods bad?
What keeps rivers flowing during
drought? How can riparian function enhance
wildlife habitat and sustain water on your
land?*

LEARN from leading experts the hows and whys of rivers and riparian function. Participants will learn basic riparian dynamics: the interaction of hydrology - vegetation - erosion/deposition. This information has been successfully used in many locations to promote cooperative riparian management among landowners. Leading riparian experts - Steve Nelle and Sky Jones-Lewey team teach these ½ classroom ½ field workshops that are sure to change the way you look at creeks and rivers forever.

October 1, 2012 - Uvalde Riparian Workshop
