

## **Society for Ecological Restoration Texas & Southwest Chapters**

*Joint Annual Conference*

### **Ecological Restoration in the Southwest**

**October 17-19, 2014**

**Alpine, Texas on the campus of Sul Ross State University**

**Alpine, on the edge of the Chihuahuan Desert between Big Bend National Park and the Davis Mountains is referred to as the "Switzerland of Texas." At 4,600 feet, Alpine supports one of the most agreeable climates in Texas. Home to Sul Ross State University, Alpine is a relaxed, friendly, university town that serves as a gateway to the region.**

**Join us in October in Alpine for TXSER and SER-SW's 2014 annual conference *Ecological Restoration in the Southwest*. Network and find new, exciting ways to contribute to the field of ecological restoration - through presentations, speakers, and field trips in this unique region.**

**To register and for updates on field trips & program information, visit:**
