

Stars over Utopia

Join us for a Hill Country Alliance & Keep Utopia Beautiful
Dark Sky Program

Come on over and enjoy the expansive view of the Sabinal Valley!

Friday, October 24, 2014

Rock'n O Ranch, 303 Thanksgiving Road, Utopia, TX

6 – 9 pm

A dark night sky full of big bright stars is important here in the Hill Country, just like clean rivers, scenic vistas and natural landscapes. Little by little, light-by-light, the magical mystery of the big Texas night sky is diminishing. But it's not too late to reverse this trend. You can help!

- ★ Bill Wren of the McDonald Observatory will share his expertise on the value and simple strategies to protect starry skies.
- ★ Learn Money Saving Tips - what you can do to "fix" wasteful outdoor lights at your home, ranch, neighborhood and community
- ★ Light refreshments served. BYOB and BAT (bring a telescope!)
- ★ Fun, Free, Open to the Public, Kids Welcome!

Parking available on Thanksgiving Road and shuttle service for those needing a lift up the hill.
