

The Hill Country Alliance presents a screening of:

The City Dark

a search for night on a planet that never sleeps

with Guest Speaker: Astronomer Bill Wren from the McDonald Observatory

Wednesday, December 11, 2013 • 7:00 PM (doors open at 6:30)

Bee Cave City Hall, 400 Galleria Parkway

A free event for everyone!

THE CITY DARK chronicles the disappearance of darkness. The film follows filmmaker and amateur astronomer Ian Cheney, who discovers an urban sky almost completely devoid of stars. Posing a deceptively simple question—"What do we lose, when we lose the night?"—the film leads viewers on a quest to understand how light pollution affects people and the planet. *THE CITY DARK* shines new light on the meaning of the dark.

Bill Wren has been leading conversation all over the hill country about simple, easy to implement techniques for reducing sky glow and protect Texas night skies.

- Learn money saving tips - what you can do to "fix" wasteful outdoor lights at your home, ranch, neighborhood and community.
- Sports fields, commercial buildings and schools can be safely and effectively lit in ways that reduce light pollution – find out how.
- The charm of the Hill Country will be enhanced as our community works together to create starry nights for future generations.
- Travis County is about to add an observatory at Reimer's Ranch. The more we reduce light pollution, the more stars our kids will see at night!
