

# RIPARIAN RESTORATION FIELD DAY

FRIDAY, OCTOBER 14<sup>TH</sup> AT THE LBJ RANCH IN STONEWALL, TX

**9:45 AM**

**Park, Walk to the River, and Sign In**

**10:00 AM**

**Welcome, Overview, and Introductions** – Clint Herriman (NPS) and Rachel Seets (HCA)

**10:20 AM**

**Review of Riparian Systems: Function and Values** – Daniel Oppenheimer (HCA) and Ryan McGillicuddy (TPWD)

**10:30 AM**

**Riparian Planting Assessment** – Ryan McGillicuddy (TPWD), and Daniel Oppenheimer (HCA)

- Discuss simple riparian monitoring techniques
- Assess different planting methods and species

**11:20 AM**

**Landowner Networking**

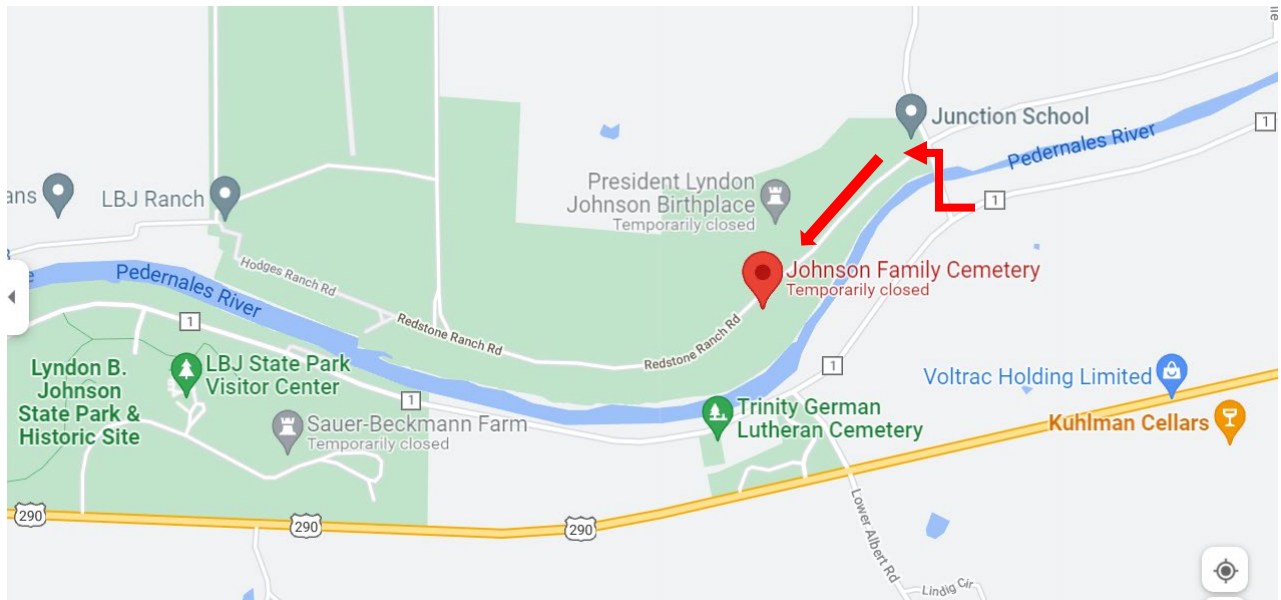

- Sharing experiences, observations, and lessons learned from your riparian area
- What do we need to be successful in stewarding out riparian areas moving forward?

**12:15 PM**

**Wrap Up**

## Getting there:

*We will meet on October 14th at the LBJ National Historical Park, which is on the north side of the river (not to be mixed up with the state park located on the south side of the river).*

*From Route 1, turn onto Klein Road (look for the Ab Astris Winery Sign) and cross the Pedernales River, then turn left to enter the LBJ National Historical Park.*

*Drive 0.4 miles through the main entrance and park by the Johnson Family Cemetery. See red arrows in the above map for reference.*
