## **Rainwater Revival Celebrates 6<sup>th</sup> Year**

*Sat, Nov 7, 2015, Dripping Springs Ranch Park & Event Center*

(Austin, TX) – The Rainwater Revival is back in Dripping Springs for its 6<sup>th</sup> Anniversary to be held on Saturday, Nov 7, at Dripping Springs Ranch Park. The popular, annual event is part festival, part educational series, and always a celebration of the ease, sweet taste, and wisdom of harvesting rainwater.

The free, daylong event features a main stage where rain harvesting experts and practitioners will speak throughout the

day. Speakers include Richard Heinichen, Mayor of Tank Town, John Dromgoole, The Natural Gardener, and personal stories and experiences from the Home & Business Owners Rainwater Harvesting Panel.

More than 35 exhibitors will be on hand to demonstrate the latest in rain capture equipment, systems, and accessories. As always, the Raindrop Stop for kids, food trailers, and noontime Texas swing music will deliver toe-tapping fun for everyone.

The Hill Country Alliance produces the annual “edu-tainment” event for the rainwater harvesting curious, novices, skeptics, and seasoned practitioners. Homeowners, businesses, urban and rural dwellers, homebuilders, developers, teachers and students are invited to come learn about the ease and many benefits of rainwater collection, including a reduced impact on local aquifers, saving money on water bills, and the confidence of a sustainable water supply. Get ready to catch it when it rains.

For a complete schedule of speakers, a list of vendors and exhibitors, and more information on rainwater harvesting, visit [www.rainwaterrevival.com](http://www.rainwaterrevival.com).

*The Rainwater Revival is an annual celebration of collection, conservation and common sense designed to help individuals and businesses learn how to capture rainwater for in-home use and outdoor irrigation.*

*The Hill Country Alliance is a nonprofit organization whose purpose is to raise public awareness and build community support around the need to preserve the natural resources and heritage of the Texas Hill Country.*
