

PALO ALTO COLLEGE FINE AND PERFORMING ARTS SUSTAINABILITY SERIES

Interpreting sustainability through art gives the viewer another perspective to understand the need to conserve natural resources. The art of making something beautiful out of everyday objects reminds us that less waste brings more opportunities for all of us to enjoy the world.

Each Sustainability Series Artwork Exhibit focuses on recycled art materials and inspires the viewer to think about sustainability. Each exhibit's Lunch and Learn features short performances and presentations from students to provide further insight into the artwork.

INK ON PAPER
