

## Compliance and enforcement for community water supplies in the Texas Hill Country

Raymond Slade, Jr., Certified Professional Hydrologist

The Texas commission on Environmental Quality (TCEQ) regulates and permits community water supplies and suppliers in the State. TCEQ information about drinking water is available at <https://www.tceq.texas.gov/drinkingwater>. The U.S. Environmental Enforcement Agency maintains a database of enforcement and compliance history for all facilities regulated by the agency. The site is at <https://echo.epa.gov> and presents compliance and enforcement data for all facilities regulated by the EPA. The data in the attached Excel-table represent, for the Hill Country area, every community water supply as existed on the EPA website as of September 22, 2018--464 suppliers.

A summary of the compliance and enforcement history for the suppliers is as follows:

- The 464 community suppliers provide the water supply for about 3.85 million people.
- During the last 3 years, 108 of the suppliers had permit violations every quarter.
- During the last 3 years, the average number of quarters with violations is 5.2 (out of 12) per facility.
- During the last 3 years, three facilities had serious violations every quarter.
- During the last 3 years, there were 220 quarters with serious violations--an average of 0.5 per facility.
- 17 of the facilities have current serious violations.
- 27 of the facilities have Health Flags.
- During the last 3 years, 850 rules were violated and 323 are currently begin violated.
- During the last 5 years, there were 5,728 informal actions but only 56 formal actions. Perhaps more formal actions should have been taken.

The following tables presents for selected column headings, the Suppliers with the most infractions.

### Suppliers with at least 6 quarters as serious violator during the last 3 years

Supplier Name	County Served	Population Served	Quarters as Serious Violator Last 3 yrs
OAK HILL ACRES MOBILE HOME SUBDIVISION	Bexar	81	12
LAZY ACRES TRAILER PARK	Bexar	108	12
BUENA VISTA WS BURNET	Burnet	366	12
BUCHANAN LAKE VILLAGE	Llano	425	11

Selected column definitions. Detailed definitions available at web page presented at top of table.

**Primary Source Code:** GW = Groundwater; SW = Surfacewater; GU = Groundwater under direct influence of SW; GWP = Purchased GW; SWP = Purchased SW

**Health flag:** Violations of maximum contaminant levels (MCLs) or maximum residual disinfectant levels (MRDLs), which specify the highest concentrations of contaminants or disinfectants, respectively, allowed in drinking water; or of treatment technique (TT) rules, which specify required processes intended to reduce the amounts of contaminants in drinking water. MCLs, MRDLs, and treatment technique rules are all health-based drinking water standards.

**Informal Enforcement Actions** do not specify actions and deadlines for returning to compliance.

**Formal Enforcement Actions** compel a supplier to take specific actions by specific dates to return to compliance.
