

## PROGRAM SPOTLIGHT: HCA'S SCHOOL GRANT PROGRAM

HCA's Rainwater Revival School Grant Program supports Texas Hill Country Schools in their effort to reduce water usage and educate students about the importance water conservation. Over the past seven years, we have awarded more than **\$20,000** to **17 schools** to help set-up or continue water conservation education programs.

“The Mason High School Pioneers are grateful for HCA's support towards our Rainwater Harvesting Project. We are excited to be able to help our school for many years to come as well as our environment with water conservation. The Pioneers goals are to learn leadership skills as a student but also as an individual in society and this project created a new mindset for all students involved.”
