Water and the 2019 Legislative Session: *The Outlook for Hill Country Water Resources*

The Texas Water Symposium provides perspectives from landowners, policy makers, scientists, water resource experts and regional leaders.

Join us as we explore the complex issues and challenges in providing water for Texans in this century.

Each session is free and open to the public. The events are recorded and aired on Texas Public Radio one week later.

Representative Andrew Murr – District 53; Western Hill Country Counties

Representative Erin Zwiener – District 45; Hays and Blanco Counties

The 86th Texas Legislative session has begun, and lawmakers are considering bills of immediate relevance to the Texas Hill Country. Booming population growth in our region, when coupled with extreme drought and catastrophic flooding, creates myriad management challenges in regards to water resources.

Join state representatives from the Hill Country as they engage in a conversation and public question and answer session to discuss bills that address flooding, treated effluent discharges, water well protection, growth, and support of sound science oriented natural resource policy.
