

# Be a Sponsor. Be a Star.

Help us celebrate our night sky in October

**October 2020 is Night Sky Month in the Texas Hill Country.**

It's a perfect opportunity for you to shine among the many thousands of stargazers of all ages who love the night skies and want to keep them dark and dazzling.

**Please join the Hill Country Alliance as a sponsor of our first annual Night Sky Month.**

October 2020 is a a month of two full moons – and a month filled of online, virtual and COVID-safe activities and celebrations planned by partners and communities across the Hill Country.

Our website, [NightSkyMonth.com](http://NightSkyMonth.com), will become the premier information clearinghouse and central calendar for all star-happenings throughout the Hill Country, throughout the month. Your name or logo could be there too – as bright as Sirius!

Once in a blue moon, you can be a star!
