

COMMUNITY CONVERSATION: WATER IN KERR COUNTY

4:30 - 6:30 PM

Riverside Nature Center
150 Francisco Lemos St | Kerrville, TX

The Guadalupe River and the aquifers that sustain it are the heart of Kerr County. In the last year, we've seen drought threaten the health of these resources. At the same time, growth in the county means more people will rely on our waters than ever before.

Please join us for a community gathering to learn about issues facing our county waters and discuss how we can shape their future.

Light snacks will be provided. Feel free to bring snacks and drinks to share.

Please RSVP here: bit.ly/kerrwaters

Agenda:

4:30 - 6:00 PM Presentations & Discussion

6:00 - 6:30 PM Refreshments

Brought to you by:

Riverside Nature Center
Guadalupe Riverkeeper
