

Distinguished Lecturer Series

Hydrogeology, Management and Engineering Controls in Karst

Featuring: Dr. Zoran P. Stevanović

Centre for Karst Hydrogeology at the Department of Hydrogeology of the University of Belgrade — Belgrade, Serbia

DATE & LOCATION

Friday, October 16, 2015

*Southwest Research Institute
San Antonio, TX*

*The lecture will run from
9:00 a.m. to 4:30 p.m.*

COST

Early registration with payment is \$25 for the day and includes lunch and supporting materials. \$15 for students. On site payment is \$30 at the door. Payment at the door by cash, check, or charge.

REGISTRATION

*Deadline for registration is
Wednesday, October 14, 2015.
Registration and payment can be
made online at*

Dr. Zoran Stevanović will present a 1-day lecture/workshop on karst hydrology and water management issues with emphasis on the Balkans and Middle East.

TOPICS TO BE COVERED:

- Mediterranean and Dinaric karst – A cradle of karstology and karst hydrogeology
- Aquifers over-extraction and humanitarian water supply in arid regions
- Engineering solutions and control of karstic environment and aquifers
- Conflicts and solutions in groundwater management in differently developed environments

ABOUT THE PRESENTER:

Dr. Zoran Stevanović is Professor and Head of the Centre for Karst Hydrogeology at the Department of Hydrogeology of the University of Belgrade - Faculty of Mining & Geology (FMG), Belgrade, Serbia. He has worked extensively on groundwater management and aquifer exploitation and control Serbia, Algeria, Iraq, Georgia, Bhutan, Seychelles, Somalia, Ethiopia, and the Balkans (former Yugoslavia countries). He has participated in many international cooperative research programs, been a member of the scientific committees, an as an invited lecturer or honorable guest of numerous international conventions and conferences. He has been a member of the examination panels and invited lecturer of universities in Romania, Iraq, Italy, Hungary, China, Iran, and Germany.

He is the Ex-Secretary of the Hydrogeological Sub-commission of Carpathian Balkan Geological Association and Ex-Vice president of the Serbian Geological Society. Member of Assembly of the University of Belgrade and the Scientific Council on Technical Sciences 2005-2013. Currently, he is a member of the Karst Commission of International Association of Hydrogeologists and the Board on Karst and Speleology of the Serbian Academy of Science and Arts. In 2012, he was elected President of the Serbian Geological Society (SGS) and Chairman of the Karst Commission of the SGS. Zoran is a consultant of the FAO/UN, Head of Groundwater Unit of FAO Program in Northern Iraq and author of two published volumes of "Hydrogeology of Northern Iraq" (2004). He has also been a consultant for UNESCO and several other organizations and well-known companies.

Dr. Stevanović has published 295 papers, wrote and edited fifteen monographs and two textbooks including the Elsevier Monograph (co-edited with N.Kresic): "Groundwater Hydrology of Springs: Engineering, theory, management and sustainability" (2010) and Springer practical guide-book "Karst aquifer - Characterization and engineering" (2015).

CO-SPONSORS

Southwest Research Institute / South Texas Geological Society / Texas Water Development Board
UTSA-Center for Water Research / Texas Bureau of Economic Geology / Texas Groundwater Association
Edwards Aquifer Research and Data Center / UT-Austin, Jackson School of Geoscience
Texas Water Conservation Association / River Systems Institute, Texas State University
National Cave and Karst Research Institute / National Groundwater Association
International Association of Hydrogeologists, Karst Commission
