

Blanco River Restoration Workshop (with free riparian grasses and sedges)

Saturday, March 5th, 2016

Wimberley Community Center 8:30 am – 5:00 pm

RSVP at ryan.mcgillicuddy@tpwd.texas.gov

Please join us for an in-depth workshop covering riparian restoration and design techniques. Native riparian grass and sedge transplants will be distributed at no cost. Experts will cover technical topics including: property assessment, restoration plan development, permitting, species selection, soil preparation and amendment, seeding timing, seeding and planting practices, invasive species management, maintenance, and monitoring. Admission is free and open to the public. Lunch provided with RSVP. Updates and agenda at:
