Master Composter Certification

Learn how to make the best compost!

Workshop Description: The State of Texas Recycling Alliance (STAR) Master Composter Certification program provides the curriculum for this training for community coordinators and potential Master Composter course instructors. The workshop consists of 20 hours of education/training, followed by 20 hours of volunteer service, ensuring the program is perpetuated throughout the community and that the benefits of compost reach as many Texans as possible.

Instructor: Neil Kaufman has taught master composter courses and seminars all over Texas for the last five years. Neil holds a degree in wildlife biology from Texas State University and currently lives in Austin where he works as the Environmental Specialist for the University of Texas at Austin.

- Improve your compost methods and techniques
- Troubleshoot potential problems in your compost
- Understand and utilize compost biology & chemistry to refine your compost
- Learn to analyze & improve compost
- Learn compost pile setup and maintenance
- Educate, volunteer, network, and make a difference!
