

# SOIL HEALTH & ORGANIC LANDSCAPES

FREE & OPEN TO THE PUBLIC

**Wednesday, April 19, 6pm**

**William R. Sinkin Eco Centro**

**1802 N. Main Ave.**

- Maximizing landscape/gardening success in our alkaline, shallow soils through effective use of organic material and well-adapted plants.
- Cultural practices to incorporate compost and other organic materials into organic material depleted soils.

**Guest Speaker: Calvin Finch Ph.D.**

Horticulturalist, Columnist, Water Conservation Expert

Dr. Finch writes weekly columns for 7 area newspapers including San Antonio Express News. He also does the radio show, Milberger's Gardening South Texas, Saturday's at noon, and frequently appears on KSAT 12 with Steve Browne. Dr. Finch served as the SAWS Water Conservation Director, and Director of the Texas A&M Water Conservation and Technology Center.
